EDUCATION

B.Tech, Computer Science Engineering (AI),
Institute of Engineering and Technology
GPA - 7.91 2021 - 2025

SKILLS

Languages	HTML, CSS, JavaScript, C/C++
Framework	ReactJs,NextJs, NodeJs, ExpessJs, Redux
CSS Framework	Tailwind CSS
Database	MongoDB
Version Control and Collaboration Tools	Git, GitHub
Soft Skills	Teamwork, Communication, Time Management

WORK EXPERIENCE

Ricoz Connecting Audience: ReactJs Developer (Internship)

- As a ReactJS Developer at Ricoz Connecting Audience, I undertook the development of a website from scratch, leveraging ReactJS and Tailwind CSS technologies. This involved the meticulous crafting of custom panels to meet project specifications, alongside the creation of an intuitive admin panel for seamless management.
- Additionally, I took on the responsibility of hosting the website through cPanel and maintained it, ensuring smooth operation and making necessary updates when changes occurred.

PROJECTS

MyFastX Courier services

- MyFastX, a courier service provider website, utilizing React, Node.js, MongoDb and Redux extensively. The platform includes an admin panel for customer management. It is fully responsive and visually appealing.
- The platform allows users to sign up using their email and mobile number, with login facilitated via mobile OTP authentication.

PrepEat Website

- PrepEat is a dynamic and user-friendly website developed with React.js, offering a seamless platform for various services including tiffin delivery, chef services, and laundry assistance.

Real Estate Website

- Real estate website using React, Tailwind, Node.js, and Redux, facilitating seamless property buying, selling, and renting experiences. Employed cutting-edge technologies to create a user-friendly interface and robust functionalities.

ACHIEVEMENTS

- Top 20 percent on LeetCode (Highest Rating 1651.
- Solved 200+ questions at Codechef.
- Solved 400+ questions at Codeforces for improving my problem solving skills.
